PSG COLLEGE OF TECHNOLOGY

COIMBATORE - 641004

FIRST TECH CHALLENGE 2019

INDIA

PSG TEAM B

ACKNOWLEDGEMENT

We sincerely thank Caterpillar for providing us with this wonderful opportunity of being able to participate in First Tech Challenge 2019. We thank our Management, Administration, Principal, Faculty members and staff members for their extended support.

We express our thanks to the Principal of PSG College of Technology, **Dr. K Prakasan,** for his support and kind patronage.

We profusely thank **Dr. K V Anusuya** (Professor, Department of Electronics and Communication Engineering) who has greatly helped in supporting the project, by providing us with the necessary facilities required and giving us the big opportunity to participate in the huge competition. The Supervision and support that she gave helped the progression and smoothness of the project, which helped us in completing this task through various changes.

We greatfully thank our Mentors, Mr. Senthilmani and Mr. Muthu subramani and the FTC technical committee for guiding our team. We're very thankful to our team mates for the team work and the cooperation to make the project.

TABLE OF CONTENTS

TITLE	PG NO
INTRODUCTION	1
1.1. INTRODUCTION TO THE SCOPE OF WORK	1
1.2. HARDWARE SCOPE	1
1.3. SOFTWARE SCOPE	1
1.4. GAME DESCRIPTION	2
1.5. PLAYING FIELD DEVELOPMENT	3
2. SOFTWARE	**7**
2.1. SOFTWARE SCOPE	7
2.2. TOOLS AND LIBRARIES	7
2.3. MANUAL CONTROL DESIGN	8
2.4. AUTONOMOUS PERIOD – TACTICAL OVERVIEW	9
2.5. AUTONOMOUS PERIOD – STRATEGIES	10
2.6. MANUAL PERIOD – TACTICAL OVERVIEW	15
2.7. END GAME PERIOD – TACTICAL OVERVIEW	16
2.8. END GAME PERIOD - STRATEGIES	17
2.9. AUTONOMOUS PERIOD – PSUEDO CODE	20
3. IMAGE PROCESSING – FOCUS	**26**
3.1. IDEA OF THE TASK	26
3.2. OVERALL DESIGN	26
3.3. COLOUR DETECTION	27

3.4. SHAPE DETECTION	29
3.5. TIME STAMP	31
4. HARDWARE	
4.1. HARDWARE SCOPE 20	
4.2. MECHANICAL OVERVIEW	
4.3. MATERIAL COLLECTION MECHANISM	
4.4. LIFT MECHANISM	
4.5. CUBE TRACKING MECHANISM	
4.6. BOT LIFTING MECHANISM	
5. APPENDIX	
5.1. IMPLEMENTATION	
5.2. OUTPUT IMAGES
